PROFESSIONAL SUMMARY

M.Tech graduate in Computer Science with hands-on development experience in enterprise software modules using CFML, Java, SQL, and Apache POI. Currently transitioning into software testing with foundational knowledge in manual testing methodologies including black box, boundary, and exploratory testing, gained through certified training at Rogersoft Technologies. Eager to apply technical background and testing skills in a QA role

WORK EXPERIENCE

Rogersoft Technologies Pvt Ltd

Apr.2026-present

Software Tester Intern

- Created 30+ test cases for Andon Matrimony landing page(demo site) covering positive, negative, boundary scenarios and non functional requirements.
- Identified 10+ bugs including UI, functional and non functional in demo site using exploratory testing techniques.
- Identified and reported bugs manually using Excel and by using tool like Trello
- Performed black box testing techniques for login page testing
- Prepared test scenarios and test case reports manually in Excel

Techversant Infotech Pvt Ltd, Trivandrum

Dec.2023-Apr.2026

Associate Software Engineer

CH Hakimi

- Developed a custom quote sheet generator for the Canadian warehouse using Apache POI with dynamic pricing, gemstone details, and embedded product images.
- Developed and tested jewellery item management modules with detailed validation for stone specifications, product attributes, tax calculations, and shipping information.
- Designed, developed, and tested intuitive UI components for inventory, repair, and invoicing modules to improve user experience and reduce input errors.
- Performed functional, UI, and exploratory testing for core application modules to identify usability and functional issues.
- Tested jewellery item listing forms using valid, invalid, and boundary input combinations to verify data validation and application behavior.
- Developed and tested OTP-based email login functionality, including OTP validation, expiration handling, resend OTP flow, and secure authentication.
- Conducted compatibility testing across different browsers and devices to ensure consistent website functionality and responsive UI behavior.

EDUCATION

Kerala Technological University

Aug.2022

Master of Technology(Computer Science)

CERTIFICATIONS AND SKILLS
